## Manual Gear Wheeled Grab Excavator

The HT135W-G PLUS excavator is a new generation mechanical 5-speed walking wheeled grab excavator independently developed by DIAMOND Heavy Industry. It adopts a high-power and low fuel consumption National III standard engine, ensuring the strong power and power reserve of the entire machine; The precise matching between the efficient hydraulic system and the bridge box ensures the arbitrary switching between working and walking states; The whole machine adopts a high-end hydraulic system, which has the characteristics of "fast walking, stable construction, maintenance free, and super energy-saving". At the same time, it can provide various special configuration options to meet the needs of different countries and customers.

## **Convenient Maintenance: Open Panel Design**

### Comfortable

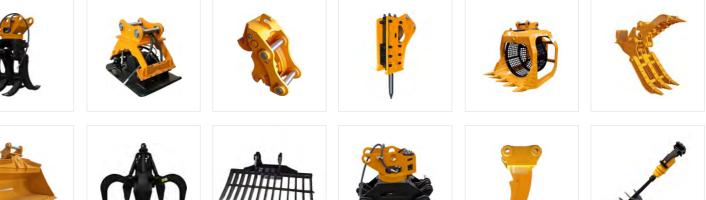

• The spacious and comfortable cab provides a wide range of views. • A new suspension seat that conforms toergonomics, thus improving the driver's operatingcomfort.

#### Configure

- The brand engine adopts newly developed fuel saving technology and has strong power.
- The original imported main hydraulic system isperfectly matched with the engine to provideaccurate flow Quantity, improve operationefficiency.

## Multiple Accessories To Choose From

### Intelligence

• Intelligent driving computer is adopted, with big data analysis and storage function and timely warning prompt

#### Energy

• Manual 5-speed, with high-speed walking ability, can achieve fast transitions. • High driving power enables the entire vehicle to have flexible ability to overcome difficulties, ensuring strong off-road performance.
